

Dear FCC,

I am an XM Satellite radio subscriber. I happen to enjoy the programming that I receive by satellite. Nothing that the local radio stations have can compare to it. The NAB should be concerned with their groups programming and how to improve it instead of trying to stop satellite radio from competing with them with petition 04-160. Competition is what free enterprise is all about. I gladly pay a monthly fee for the programming that I receive, and I think the NAB should mind their OWN business. Thanks.

Jim Ronchetto
